617.20 Appendix B Short Environmental Assessment Form

Instructions for Completing

Part 1 - Project Information. The applicant or project sponsor is responsible for the completion of Part 1. Responses become part of the application for application or funding, are subject to public review, and may be subject to further verification. Complete Part 1 hased on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible hased on current information.

Complete all items in Part 1. You may also brovide any additional information which you behave will be needed by or useful to the lead agency; littlich additional bages as necessiny to supplement any item.

Part 1 - Project and Sponsor Information			
Name of Action or Project: Companyon Shep			 Ì
Project Location (describe, and attach a location map). 4249 Killbuck Rof Great Vo	Uky Ny 14741		
Brief Description of Proposed Action. Zorning Change D'inclus	19	the	
Standing pet growning a	is approved use		
Name of Applicant or Sponser:	Telephone:		
Rebecca whicever	E-Mait: companionshep 10	gmail.	חנג
Address:			8
City/Pot5381 Tolan Rd Edlicathille	93	Code: 4731	31
1. Does the proposed action only involve the legislative adoption administrative rule, or regulation? If Yes, attach a narrative description of the intent of the propositive affected in the municipality and proceed to Part 2. If no	en of a plan, local law, ordinance. ed action and the environmental resources that	2000	YES
2. Does the proposed action require a permit, approval or fund If Yes, list agency(s) name and permit or approval:	ling from any other goveromental Agency?	NO 🖂	YES
B.a. Total acreage of the site of the proposed action? b. Total acreage to be physically disturbed? c. Total acreage (project site and any contiguous properties) of controlled by the applicant or project sponsor?	acres acres	48	39
4. Check all land uses that occur on, adjoining and near the pro Urban Rural (non-agriculture) Industria Forest Agriculture Aquatic Parkland	opesed aclien. Commercial Residential (suburban) Other (specify):)	

5. Is the proposed action, a. A permitted use under the zoning regulations?	YES N/A
b. Consistent with the adopted comprehensive plan?	
6. Is the proposed action consistent with the predominant character of the existing built or natural landscape?	NO YES
7. Is the site of the proposed action located in, or does it adjoin, a state listed Critical Environmental Area? If Yes, identify:	NO YES
8. a Will the proposed action result in a substantial increase in traffic above present levels?	NO YES
b. Are public transportation service(s) available at or near the site of the proposed action?	
c. Are any pedestrian accommodations or bicycle routes available on or near site of the proposed action?	
9. Does the proposed action meet or exceed the state energy code requirements? If the proposed action will exceed requirements, describe design features and technologies:	NO YES
10. Will the proposed action connect to an existing public/private water suph [y.]	NO YES
If No, describe method for providing potable water:	
II. Will the proposed action connect to existing wastewater utilities?	NO YES
If No, describe method for providing wastewater treatment:	
 2. a. Does the site contain a structure that is listed on either the State or National Register of Historic Places? b. Is the proposed action located in an archeological sensitive area? 	NO YES
3. a. Dees any portion of the site of the proposed action, or lands adjoining the proposed action, contain wetlands or other waterbodies regulated by a federal, state or local agency?	NO YES
b. Would the proposed action physically alter, or encroach into, any existing wetland or waterbody? Yes, identify the wetland or waterbody and extent of alterations in square feet or acres:	
4. Identify the typical habitat types that occur on, or are likely to be found on the project site. Check all the Shoreline	at apply:
Does the site of the proposed action contain any species of animal, or associated habitats, listed by the State or Federal government as threatened or endangered?	NO YES
is the project site located in the 100 year flood plain?	NO YES
Will the proposed action create storm water discharge, either from point or non-point sources? Yes,	NO YES
a. Will storm water discharges flow to adjacent properties?	
b. Will storm water discharges be directed to established conveyance systems (runoff and storm drains)? Yes, briefly describe: NO TYES	

		<u> </u>
	$=$ $ $ $^{\prime\prime}$	
19. Has the site of the proposed action or an adjoining property been the location of an active or closs solid waste management facility?	ed NO	YES
If Yes, describe.	_ [
E PROPERTY OF THE PROPERTY OF	· _ W	
20. Has the site of the proposed action or an adjoining property been the subject of remediation (one	toing or NO	O YES
completed) for hazardous waste?	going or 199	1
lf Yes, describe:		\mathbf{A}
	Y

Will the proposed action result in a change in the use or intensity of use of land? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate reasonably available energy conservation or renewable energy opportunities? Will the proposed action impact existing:	smail impact may occur	to large impac may
Will the proposed action impair the character or quality of the existing community? Will the proposed action impair the character or quality of the existing community? Will the proposed action have an impact on the environmental characteristics that caused the establishment of a Critical Environmental Area (CEA)? Will the proposed action result in an adverse change in the existing level of traffic or affect existing infrastructure for mass transit, biking or walkway? Will the proposed action cause an increase in the use of energy and it fails to incorporate	small impact may occur	to large impac may

9. Will the proposed action result in an adverse change to natural resources (e.g., wetlands, waterbodies, groundwater, air quality, flora and fauna)?

	No. or small impact may occur	Mederate. to large impact may occur
10. Will the proposed action result in an increase in the potential for erosion, thooding or drainage problems?	X	
11. Will the proposed action create a hazard to environmental resources or human health?	(X)	

Part 3 - Determination of significance. The Lead Agency is restronsible for the completion of Part 3. For every question in Part 2 that was answered "moderate to large impact may occur", or if there is a need to explain why a particular element of the proposed action may or will not result in a significant adverse environmental impact, please complete Part 3 Part 3 should, in sufficient detail, identify the impact, including any measures or design elements that have been included by the project sponsor to avoid or reduce impacts. Part 3 should also explain how the lead agency determined that the impact may or will not be significant. Each potential impact should be assessed considering its setting, probability of occurring duration, irreversibility, geographic scope and magnitude. Also consider the potential for short-term, long-term and cumulative impacts.

that the proposed action may result in one or more pote environmental impact statement is required.	nnation and analysis above, and any supporting documentation,
